

Japan's DENAN (PSE Mark) Pricing for UL Hong Kong

The total price is the sum of Safety, EMC (if applicable), factory inspection (on-site inspection or document review) and issuance of certificate. Products may be evaluated to DENAN Technical Requirements Interpretation Appendix 8 miscellaneous products including DC power supply units, Appendix 10 (EMC) or Appendix 12 (J Standards which are harmonized to IEC Standards.). This Pricing applies to Appendixes 10. Since tests required by IEC Standards vary depending on standards applied, product design & construction, components & materials used, the pricing for Appendix 12 will be determined separately by reviewing products submitted for the PSE Mark.

Safety:

Standards	Product	Price, US\$	Notes
Appendix 8	DC power supplies and appliances	\$3,300	Note 1

Note 1: The price is based on the assumption that all components are PSE-Marked. An additional fee of \$2,000 may be incurred for products which require additional tests because of product features such as heating appliances and motor operated appliances.

EMC:

Standards	Product	Price, US\$	Note
Appendix 10, Chapter 5	DC power supply unit	\$700	Note 2

Note 2: Add \$550 for additional mode of operation.

Factory inspection:

Standard	Product	Price, US\$	Note
DENAN Enforcement Regulation Article 15, Appendix 4	All	\$1,000	Note 3
DENAN Enforcement Regulation Article 15, Appendix 4	All	\$300	Note 4

Note 3: On-site factory inspection is required. Travel and living expenses are additional.

Note 4: Factory inspection is based on document review.

Issuance of certificate:

Standard	Product	Price, US\$	Note
All	All	\$140	Note 5
All	All	\$140	Note 6

Note 5: Additional duplicate original.

Note 6: Additional certificate based on same CB Test Report and Certificate for different Type Classification.

Use of IECEE CB Scheme Test Reports and Certificates:

Standard	Product	Price per CBTC/CBTR	Note
All	All	\$1,928	Note 7, 8
All	All	\$1,400	Note 7, 9

Note 7: Including one original and one duplicate original.

Note 8: Including EMC tests according to Appendix 12.

Note 9: EMC report according to Appendix 12 provided by PSE authorized EMC lab.
